SUMMARY

UI/UX Designer skilled in Figma, responsive design, wireframing, prototyping, and usability testing. Experienced in designing web and mobile interfaces from research to high-fidelity designs and developer handoff.

EDUCATION

B.Tech in Computer Science and Engineering (A.I.)

2022 – 2026

Vishwakarma Institute of Information Technology (VIIT), Pune

CGPA: 7.77 / 10

SKILLS

UI Design: Responsive Web Design, Mobile UI Design, Visual Hierarchy, Typography, Color Theory, Design Systems, Auto Layout, Components, Variants

UX Design: User Research, User Personas, User Flows, Information Architecture, Wireframing, Journey Mapping, Usability Testing, Heuristic Evaluation

Tools: Figma, Figma Make, FigJam, UX Pilot, ChatGPT, Google Gemini, Notion.

AI-Assisted Development: Cursor, Emergent, Antigravity, ChatGPT, Gemini, Prompt Engineering

EXPERIENCE

UX/UI Designer Intern | Somvanshi Technologies Pvt Ltd

Sep 2025 – Mar 2026

- **Product Design & UX Strategy:** Designed responsive web and mobile interfaces in Figma, creating user flows, wireframes, and high-fidelity prototypes aligned with business goals.
- **Design Systems & Scalability:** Built reusable UI components and scalable layouts to maintain consistency across product modules and support developer collaboration.
- **Developer Collaboration:** Prepared design specifications and handoff-ready assets while working closely with developers to ensure accurate implementation.
- **Research & Workflow Optimization:** Conducted competitor analysis and usability evaluations to improve workflows and enhance route discovery experiences.

PROJECTS

Spotify Desktop Mini Player Redesign

- Conducted UX research through Spotify Community forums, Reddit discussions, and user feedback to identify pain points in the desktop listening experience.
- Designed a **Lyrics Peek Mode** allowing users to access live lyrics without reopening Spotify, reducing context switching and improving workflow efficiency.
- Developed user flows, wireframes, and a 4-state interactive prototype in Figma and Figma Make, leveraging progressive disclosure and UX best practices to enhance usability.

Somvanshi Technologies – Contact Form UX Redesign

- Evaluated the existing inquiry flow to identify usability issues and form completion barriers.
- Redesigned form hierarchy, field grouping, validation patterns, and trust signals to improve clarity and user confidence.
- Created responsive high-fidelity Figma mockups for desktop and mobile, incorporating accessibility and developer-ready handoff standards.

Grubwala – Food Delivery Mobile Application

- Designed end-to-end food delivery flows covering product discovery, cart management, and checkout experiences.
- Created user journeys, wireframes, and high-fidelity mobile interfaces focused on usability and conversion.
- Developed a mobile-first design system and optimized visual hierarchy, typography, and CTAs to improve consistency and engagement.
